## Business for Kids (5 days)

For children aged 8-14 years

Use your imagination and brainstorming skills to create a new venture with a product or service that you think will sell. Maybe a new collectable game, magazine or range of jewellery? During the week plan your team's strategy, negotiate, create a new currency, review your personal skills, build confidence and have fun. Visit a local small-business to help you understand the every-day challenges that face today's business people. On market day sell your great new products to friends and family and calculate your success. This programme has been developed by Young Enterprise Trust.

**Cost \$335**  
12 – 16 April 2010

**Programme hours:**

<b>Monday, Tuesday, Wednesday, Friday</b>	<b>9am – 4pm</b>
<b>Thursday (Market Day)</b>	<b>9am – 7pm</b>

## LEGO Robo Challenger (4 days)

For children aged 8 years and older

Design, build and programme your own robots and test them with various speed and strength competitions in our Challenge Arena. Such as putting, the 'drop test', the tin-can grabber, and the crane and load lifting trial. Combine your creativity and problem-solving with specialised software and LEGO Mindstorm Robotic Invention kits. Each day you will learn new engineering techniques to develop and refine your robotic skills. Over four days you will progressively advance from simple to substantial programming ability. We will also visit Auckland University's Engineering School where we will see experts demonstrate their robots. You will take home your own visual record. This course has been developed by Tufts University in Boston, USA.

**Cost \$305**
