

# photography & technology

## **Digital Photography – Part 1** | 8 weeks/\$140

Incorporates basic camera functions, technical terminology, image production, photographic genres/styles and basic image manipulation using Adobe Photoshop. Includes examination of influential photographs, a guide to cameras and accessories, getting the best from your equipment. All welcome.

## **Digital Photography – Part 2** | 8 weeks/\$140

Designed to increase confidence with your photography. Requires regular photographs to be taken in multiple situations. Includes a detailed analysis of your own images, identifying your style, further manipulation skills, competition entry, image sales, legal considerations and ethics. Amateur level and more advanced.

## **Adobe Photoshop – Beginners** | 2 days/\$85

A practical guide for those interested in editing and enhancing their digital photographs. A hands-on course making best use of the editing software to bring your photographs to life and to give them that professional look. Aimed at the beginner and includes basic Adobe Photoshop tools specifically designed for the amateur photographer. Laptops provided but please bring your own if you have Adobe Photoshop installed.

## **Internet and Computing for Seniors** | 4 weeks/\$25

Unsure about skyping and emailing friends, online banking or Trade Me? Then this is for you. Impress your grandchildren by showing that you can match them on the Internet.
